:

This is a decision on the petition under ¶(a) of 37 C.F.R. §1.47,¹ filed on 24 September, 2002.

Petitioner has shown that, while all other inventors have signed the oath/declaration, the non-signing inventors **Robert F. Tow (Mr. Tow)** has refused or otherwise failed to join in the filing of the above-identified application after having been presented with the application papers, or could not be located to so present them.

Specifically, the declaration/statement/submission of facts of/by Jeannette M. Walder (Reg. No. 30,698) establish that the non-signing inventor was mailed the application papers, including the specification, claims and drawings, but failed to respond positively to the request that he sign the declaration or in fact sign said declaration.

Lastly, Petitioner has submitted a declaration in compliance with 37 C.F.R. §1.63 and §1.64 and petitioner has shown that such action is necessary to prevent irreparable damage.

¹ The regulations at 37 C.F.R. §1.47 provide:

§1.47 Filing when an inventor refuses to sign or cannot be reached.

(a) If a joint inventor refuses to join in an application for patent or cannot be found or reached after diligent effort, the application may be made by the other inventor on behalf of himself or herself and the nonsigning inventor. The oath or declaration in such an application must be accompanied by a petition including proof of the pertinent facts, the fee set forth in §1.17(h), and the last known address of the nonsigning inventor. The nonsigning inventor may subsequently join in the application by filing an oath or declaration complying with §1.63.

(b) Whenever all of the inventors refuse to execute an application for patent, or cannot be found or reached after diligent effort, a person to whom an inventor has assigned or agreed in writing to assign the invention, or who otherwise shows sufficient proprietary interest in the matter justifying such action, may make application for patent on behalf of and as agent for all the inventors. The oath or declaration in such an application must be accompanied by a petition including proof of the pertinent facts, a showing that such action is necessary to preserve the rights of the parties or to prevent irreparable damage, the fee set forth in §1.17(h), and the last known address of all of the inventors. An inventor may subsequently join in the application by filing an oath or declaration complying with §1.63.

(c) The Office will send notice of the filing of the application to all inventors who have not joined in the application at the address(es) provided in the petition under this section, and publish notice of the filing of the application in the *Official Gazette*. The Office may dispense with this notice provision in a continuation or divisional application, if notice regarding the filing of the prior application was given to the nonsigning inventor(s). [47 Fed. Reg. 41275, Sept. 17, 1982, effective Oct. 1, 1982; 48 Fed. Reg. 2709, Jan. 20, 1983, effective Feb. 27, 1983; revised, 62 Fed. This application and papers have been reviewed and found in compliance with 37 C.F.R. §1.47(a).
